Continuation of Substance of Interview including description of the general nature of what was discussed: applicant's attorney was called to suggest placing "a first electrically conductive elastic connecting element in the form of a first contact spring is arranged between the upper face of each semiconductor chip and the cover plate" to place the instant application in condition for allowance. The attorney received approval from the client to add the language above into independent claim 7. The attorney faxed over amendment B with these changes. Therefore, a notice of allowance is forthcoming. .
